Streamline Your SUSAR Distribution

Reduce Site Burden   **Increase Compliance**   **Eliminate Wasted Spend**

How are sponsors handling the increasing complexity of safety reporting?

In a highly competitive market, you don't have time to waste when it comes to helping their sites streamline their safety reporting processes.

WCG's Safety Reporting Solutions gets to the core of sponsor frustration, addressing these 4 key areas of concern:

1) Lack of harmonization among global reporting rules, which are complicated and vary by country
2) Overdistribution of safety reports, resulting in site burden
3) Lack of site adoption of a standard SUSAR acknowledgment process
4) Non-compliance and regulatory repercussion

WCG's Safety Reporting Solution allows sponsors to:

Manage Global Regulatory Complexity

With built-in distribution rules for **>110 countries,** WCG's Safety Reporting Solutions send safety reports instantly, to the right person at the right time, according to local laws and regulations.

Eliminate Significant Wasted Cost

WCG's Safety Reporting Solutions prevent over-reporting and eliminates the need for manual and brute force processes, allowing clients enjoy average savings of **$60k/study** in their overall cost of distribution.

Reduce Site Burden

Eliminating duplicate and unnecessary reports through automation makes critical safety information easy to find and minimizing investigator training time, increasing patient safety. WCG's Safety Reporting Solutions can eliminate up to **66%** of total distributions and site burden.

Maintain Constant "One-Click" Inspection Readiness

WCG's Safety Reporting Solutions allow you to generate standard reports that provides all necessary inspection records for any competent authority, with a single click. These reports are always kept up to date and eliminate the difficult work of assembling inspection records from disparate data sources.

>300K Safety Letters Distributed Daily	"Smart" Country Regulations for **>110 Countries**
$1 Billion Saved for Our Clients	Integrated with CTMS, eTMF, Safety Database, SSO
>315 Sponsors and CROs Supported	**700,000** Industry Users

A range of implementation options

WCG offers sponsors several options to support immediate transformation of disjointed and often decentralized safety reporting.

Our partners can use us to support business change management, implementation of our technology solutions, or use WCG to perform *Safety Letter Distribution* as a Service using our uploaders to take safety reports to send them on our partners' behalf.

In this way, WCG is uniquely positioned to offer organizations of any size and stage the opportunity to gain control of their safety reporting in a manner which immediately brings global compliance, reduced site burden, reduced burden on internal staff, and significant operational cost-savings.

HIGHLIGHT

How a top pharma client transformed it's safety reporting process:

A top pharma company needed to upgrade its safety document distribution system to address several challenges, including overdistribution of safety reports which resulted in site burden, non-compliance, and wasted spend.

After implementing WCG's Safety Reporting Solutions, the sponsor achieved:

50%
reduction in safety letter distribution
