

# What is your biggest challenge around billing compliance and study start-up timelines?

Gain a team of coverage analysis experts to help you navigate complicated clinical trial billing rules and changing pandemic conditions to ensure billing compliance. Leverage our experience providing study start-up services for 2,000+ trials/year to avoid unknown risks, ensure accuracy and optimize your process.

What if you could reduce staffing costs? By partnering with WCG, you avoid the costs of recruiting, hiring, training, and retaining staff, while gaining an experienced "right-sized" team that ebbs and flows with your study volumes. Your team focuses on patients while we do the paperwork.

## Benefits of WCG Coverage Analysis include:

Reduced improper billing that impacts your Medicare standing

Shortened cycle time for coverage analysis to enroll patients sooner

Assurance that the right payor covers protocol-required tests and procedures

WCG drives quality and maximizes efficiency in study start-up to accelerate the development of groundbreaking patient therapies. Our flexible approach enhances efficiency, quality and compliance.
