

MORE CONSISTENCY, LESS VARIABILITY

# Immunology Endpoint Services

WCG Trifecta has deep experience supporting immunology and dermatology studies and understands the challenges associated with ensuring consistency when conducting global clinical trials. Through WCG Trifecta's training platform, **InvestigatorSpace®**, numerous rater training tools are supported to help reduce the variability of assessing treatment efficacy. Yet another way WCG Trifecta helps deliver *More Trial* and *Less Error* across your clinical trial processes.

## How WCG Trifecta Supports Eczema

WCG Trifecta's training platform (InvestigatorSpace) is now the only distribution system for the Validated Investigator Global Assessment for Atopic Dermatitis (viGA-AD™) which was developed by Eli Lilly, the International Eczema Council (IEC) and other experts, for use in clinical trials.

In addition, WCG Trifecta hosts and validates the Atopic Dermatitis rater training for EASI/BSA with assessment and TLSS, and can centralize this rater training and the documentation in our InvestigatorSpace platform.

Eli Lilly has generously granted access to make the viGA-AD™ scale and investigator training modules available to other companies and academic groups. WCG Trifecta can provide access to scale, video training modules and certification exams.

## How WCG Trifecta Supports Psoriasis

WCG Trifecta provides certified, online GRAPPA (Group for Research and Assessment of Psoriasis and Psoriatic Arthritis) training to thousands of raters since 2013. WCG Trifecta maintains on-demand training modules are kept ready and current so your investigators can access training, anytime, anywhere across the world.
