

Accelerate Your Start Up with Customized Training Delivered in *Only 5 Days*

Manage your investigator training, study documents, and safety reporting with a single login

WCG InvestigatorSpace® is an all-inclusive site and study team platform that connects clinical trial training, study documents and safety letter notifications – with one login. Critical study communications can now be harmonized in one system.

What if this system could increase efficiency and accelerate study starts? WCG InvestigatorSpace automates workflows to eliminate manual labor and reduce site and study team burdens. You'll refresh your research program by accelerating study timelines and ensuring a new level of quality and audit preparedness.

One Comprehensive Platform

Investigator Training

Centralize all your training documentation for in-person, virtual, role-based, task-based, SIV documentation and on-demand investigator training through WCG InvestigatorSpace. This purpose-built platform provides 24/7 real time reports to ensure audit readiness and reduce redundant training. Content is quickly captured and produced – with central study home page, task lists, amendments, refreshers, and document management. You'll lower training costs by 60% and reduce training asset creation time by 90%.

Safety Reporting

Streamline safety letter distribution and reporting to eliminate duplication and alleviate site burdens. Safety events (SUSARs, AEs, and SAEs) are entered quickly and easily via one portal, increasing efficiency and improving communication. You'll achieve perpetual inspection readiness with a complete audit trail, ensuring 100% auditability and traceability.

The WCG InvestigatorSpace Platform Features

- In-Person Investigator Training
- Virtual Investigator Training
- On-Demand Training
- Role & Task-Based Training
- Training Certificates
- Rapid Content Development
- Mobile App for On-Site CRA Training
- Safety Letter Distribution & Reporting
- Regulatory Document Exchange
- Study Home & Resource Center
- Help Desk Support
- CTMS and ETMF Integration
- Amendment Rollouts in 24 Hours
- Single Sign-On
- Immunology Endpoint Assessment Training
- Cross-Sponsor Exemption
- Uploading of Content

Your study can be live in WCG's InvestigatorSpace in just five business days, helping your sites get to first patient in sooner with less study management time spent on audit preparedness. With on-demand training and automated workflows increasing staff efficiency, your sites can focus on patient care.

Leverage the industry's most robust investigator training and safety platform, proven by:

280,000+ Clinicians

75,000+ Sites Globally

150+ Countries

5M+ Training Certificates

6M+ Safety Letter Assignments

Client Testimonials

"The training process only took 2 weeks, with 1,133 patients and 11 sites quickly enrolled in the trials."

"We learned through COVID-19 the importance of decentralized trials and using all the technology at our hands. Why wouldn't we be doing that with training? We have the technology to do excellent virtual training, and we should embrace it."
