

Notification: Upcoming Migration of Studies to eReview Manager

Your study and associated sites not yet housed in **ClinSphere® eReview Manager** will soon be moved from **IRB Connexus** to **ClinSphere® eReview Manager**.

A few days before this happens, you'll receive an email notification. After the migration, all study and site workspaces, submissions (except drafts), documents, outcomes, and user permissions will only be accessible in eReview Manager.

Once the migration is complete, you'll get messages confirming your Connexus access has been removed and another with instructions and reminders for using eReview Manager.

Thank you for your continued partnership.

If you have questions or concerns about these changes, contact WCG IRB Client Care at 855-818-2289, or e-mail clientcare@wgcclinical.com.
